Smaltoplast Silk

Ecological, Hypo-allergic, Antimicrobial Emulsion Paint

Ecological wall emulsion paint with velvet eggshell finish for interior use. Certified for its antimicrobial efficiency. Due to its special composition, it protects the film from the growth of microorganisms (bacteria and fungi). Hypo-allergic, awarded by the British Allergy Foundation, it reduces the presence of fungal and bacterial allergens in the building providing a better and healthier environment for allergy and asthma sufferers. Easy to clean (EN 13300, class 1), providing cleaner surfaces. In 2013, it was recognized as «DIY Product of the Year» by the majority of Greek consumers. White and thousands of shades via Premium Color Moods VECHRO Tinting System!
